

NEW VERSION RELEASE NOTIFICATION

REGIS new version release

Date and Time:

Wednesday 7 August 7am-9am

Event:

REGIS (www.regis2.health.nsw.gov.au) will have a new version released to the production environment.

What is the impact to end users?

A number of bugs have been identified in Production, the vendor has developed a number of 'hotfixes' to address the following:

Internal	Review notification workflow sends whenever review is updated. Only send on first save.
Internal	Process Decision: Site project not created after being authorised STE00313 [#INC-100583]
Internal	Process Decision: Site project not created after being authorised STE00243 [#INC-100583]
Internal	REGIS Document Upload Error. CSV load error.
External	PID editors are able to complete the steps to invite a user to Share/Edit but receive an error message when completing the final step. The icon has been removed, current system design is that only the Owner can share.
Internal	Merging user accounts when an application is under review with the old/inactive user details causing the project transfer workflow.
Internal	Amendments being spontaneously un-submitted.
External	Dash in the file name causing application submission issues.
External	Users unable to change/update their profile.
Internal	Internal portal - deleting related document with tags causing system to crash
Internal	Final report milestone being set to received – not disappearing off milestone tile.

A number of enhancement have been built and are being released in to Production.

External	Early phase clinical trials will now be system allocated the HREC (Bellberry or Sydney Children's Hospital Network) based off the initial responses in Project Registration.
Internal	Upgrade to the merge functionality.

Response:

Business as usual please ensure any issues are reported directly to the REGIS help desk as soon as they arise.

System support and issues reporting:

REGIS Helpdesk: 1300 073 447

Please ensure you record the ticket number when you call to assist any follow up contact

General Feedback:
