Creating and Preparing HREC Meetings

What are meetings in REGIS?

Once the Executive Officer (EO) or research administrator has assessed a human research ethics application (HREA) as eligible for ethical review, the HREA and supporting documentation can be allocated to a meeting to be reviewed by the Human Research Ethics Committee (HREC), and where relevant, any subcommittee.

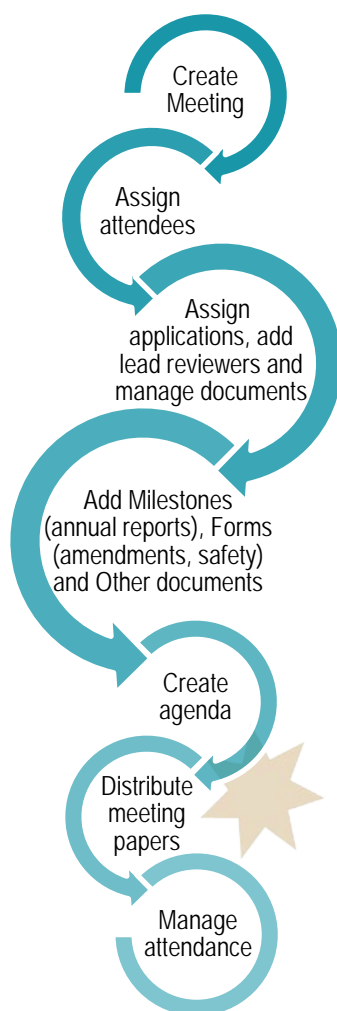

REGIS manages all documentation for HREC meetings.

REGIS can generate agendas, minutes and actions. These are completed and distributed in REGIS by the Executive Officer or research administrator. There are standard templates, which are to some extent editable, in REGIS.

*Note: A Greater Than Low Risk application **MUST** be assigned to a meeting for metrics 3 to be captured.*

How it works in REGIS

The following diagram is an overview of the HREC meeting process in REGIS.

Create the meeting
