[HREC Meeting Dates for 2024: Send them through!](#)

Audience: Research Office

It's that time of the year again!

We are asking that Research Offices please provide their HREC closing and meetings dates for 2024 [via this form](#). Once provided, we will be uploading and advertising these on the OHMR website. Please ensure that it is clear which HREC you are providing the dates for.

You will have the option of providing a link to your website if they are already live, uploading a document or providing manual data via the free text section.

*Please provide your HREC meeting dates by **Wednesday 20 December 2024**.*

2024 REGIS Researcher/Coordinator Training: Registrations Now Open

Audience: Researchers/Coordinators

The eHealth REGIS team offers annual Researcher/Coordinator training as a series of six (6) educational sessions that have been designed to step attendees through submission processes such as submitting the initial project registration through to completing and submitting post approval activities, provide an understanding around how information flows through the system, document management, system notifications and the different types of amendment and safety forms.

Sessions have been designed to allow attendees to attend the whole cycle or standalone sessions specific to their role in REGIS.

If there is a session you are unable to attend, [the entire training suite is available on the REGIS website, under Content Resources](#).

Once training has been completed, you will have a better understanding of the submission process, how information flows through the system, when to expect system notifications, user roles and document management!

Training will be conducted via Microsoft Teams, [check out the training schedule here](#) and register for training below!

[Click here to register for the upcoming 2024 Researcher/Coordinator training!](#) *Once registered, training invitations will be sent two (2) weeks prior to the session date.*

2024 REGIS Research Office Training: Registrations Now Open

Audience: Research Office

The eHealth REGIS team offers annual Research Office training as a series of interactive sessions that have been designed to take attendees through the processes flow through the system. The Research Office will also be able to see how external users navigate the system such as Research applicants, Heads of Department (or Divisional Directors), HREC members, Reviewers and CEs.

Sessions have been designed to allow attendees to attend a whole cycle or sessions specific to their role i.e. Ethics only sessions or Governance only sessions. As the training sessions have been created to show the process flow through the system, attendees must attend the sessions in sequential order.

If there is a session you are unable to attend, [the entire training suite is available on the REGIS website, under Content Resources.](#)

Once training has been completed, you will have a better understanding of how to navigate the system, system functionalities, system processes and have the skills and knowledge to troubleshoot basic issues with applicants!

Training will be conducted via Microsoft Teams, [check out the training schedule here](#) and register for training below!

[Click here to register for the upcoming 2024 Research Office training!](#) *Once registered, training invitations will be sent two (2) weeks prior to the session date.*

REGU/REGIS: Happy Holidays

Audience: Research Office/Researchers

Heartfelt Thanks and Best Wishes for 2024

A message for everyone working in our broad research community in NSW; be that in a research enabling office, on an HREC, as research coordinators, or those directly involved in health and medical research in our public health institutions-

As we approach the end of another remarkable year, I want to take a moment to express my deepest gratitude for your unwavering commitment, dedication, and outstanding contributions to our shared goals of embedding a culture of research and innovation in the NSW public health system. Your hard work and, more importantly, your collaboration with each other and our office have truly made a significant impact on our ability to bring new treatments to more patients in NSW.

This year has presented its fair share of challenges and uncertainty, yet the resilience and determination within LHD and SHN research offices and at the patient 'coalface' have been nothing short of inspiring. I've been so excited to hear of the innovative ideas and problem-solving that have been shared at our Roundtables, in this newsletter and many other forums, which have provided food for thought and inspiration both to my unit and to all of your colleagues around the state. Keep them coming in 2024!

When I have attended interstate events throughout the year, I am always asked what we are doing in NSW and whenever I speak of our achievements, those around the country are awe-inspired by the things we are doing in NSW. We are genuinely a template that other jurisdictions and the Commonwealth look to follow.

As we bid farewell to 2023, I want to extend my warmest wishes to you and your loved ones for a joyful holiday season and a prosperous New Year. May 2024 bring you fulfillment, happiness, and new opportunities for personal and professional growth.

Wishing you and your family a wonderful holiday season and a Happy New Year!

Warm regards,

James

1 - Happy Holidays from the Cokaynes!

2 - Meowy Christmas from Diablo (unofficial REGIS training mascot)

3 - Hugo the sleepy Santa Paws
